About US

Dr. Amit Patel

Welcome to satva Ayurved and Panchkarma Clinic, your ultimate destination for prioritizing your health and well-being. We are dedicated to harnessing the ancient wisdom of Ayurveda in a scientific manner to facilitate profound healing at the cellular level.

Founded in 2010 by Dr. Amit Patel, satva Ayurved stands firmly by the belief that "Health is Wealth." Driven by this ethos, we have seamlessly merged the age-old principles of Ayurveda with cutting-edge scientific insights to offer comprehensive well-being solutions.

Dr. Amit Patel is an illustrious alumnus of Gujarat Ayurved University, armed with seven years of clinical and research expertise across various domains, including dermatology, arthritis, asthma, infertility, and lifestyle disorders. His journey has been shaped by the revered tradition of "Guru-Shishya Parampara," through which he imbibed and cultivated the profound teachings of Ayurveda.

With over 16 years of dedicated work experience, Dr. Amit Patel has not only mastered the art of Ayurveda but also applied its principles in transformative ways.

Garbh Sanskarn

Garbh Sanskar is an ancient sacred Ayurvedic method that helps you obtain desired child and having good result in "Idopathic Infertility", this a specific idea of your child. We can help you to bring healthy baby through this method. Suvarnprashan is a natural immunity builder in child along with nurturing the body and mind, given in Pushya Nakshatra. It is one of the sixteen 'Sanskaras' (rituals), described in Ancient Indian Scripture.

- Garbha Sanskar

Suvarna Prashan

Swarnaprasha is one of the 16 Sacred rituals to be performed for a newborn. In this, active principles of elemental gold are mixed with equal quantities of honey and medicated ghee to form an Elixir of Gold. This elixir is given as oral drops to infants during auspicious days of the year. Swarnaprasha bestows the baby with immunity, strength, and intelligence. It is scientifically proven to enhance the cognitive abilities of children by improving brain function, stronger memory pathways, and intellectual abilities.
